

## A Decade of Helping Practices Grow

Step back and take a good look at your print and online marketing messages. Then ask yourself if your website:

- Lands on the top of Google and other search engines?
- Accurately reflects the excellence of your services?
- Drives new clients to do business with you?
- Highlights why you outdo your competition?
- Makes a great first impression?

Chances are your practice is coming up short in one or more of these areas. First impressions are lasting impressions. In a culture of ever-evolving technology, you can't afford to fall behind the competition.

## Meet Dr. Mark Feltz, DVM, Owner

Ten years have passed since I opened a small office in Portsmouth, N.H. and founded VetNetwork as a one-man operation. My business plan was to serve the marketing needs of veterinarians across the United States and Canada.

Having been in practice for more than 25 years, I recognized the gaping need for a company like VetNetwork. To launch it, I would combine my experience as a veterinarian with an advanced degree in marketing and information technology to help you communicate with the pet owners who rely on you.

Since 2002, VetNetwork has grown exponentially. The reason for our success? It's this simple mission: All day, every day, we are dedicated to building and maintaining long-term relationships with veterinarians like you.

We help you grow your practice by promoting your services. We have a proven track record for growing client bases and increasing revenue. That's how we became Google's No. 1-ranked, full-service marketing company for veterinary professionals.

As a fellow veterinarian, I speak your language. As owner of VetNetwork, I'm happy to share the innovations and strategies that have worked for hundreds of professionals, just like you.

Ready to grow? Give me a call.

Sincerely,

Mark Feltz, DVM, Owner
